

# MICROSOFT OFFICE USER

## SKILLS

**Used :** Node.js, Golang, MongoDB, SQLite, MS SQL Server, Postgresql, Docker.

**Basic Knowledge:** Python/Django, Android, PHP/CodeIgniter, Javascript, C#

## EXPERIENCE

**Technical Associate | BlockchainZoo | May 2019 – Present**  
**| Ubud, Bali, Indonesia**

I'm developing the Blockchain Explorer with my main team on the scheduler for parsing and process the data and api to relay the data to api to the UI using NodeJS, and helping the core team in developing the core application sometimes. Once my boss asked me to develop the unit testing to stress test the core to test its endurance. We are using Git for versioning and MongoDB for the explorer database.
